

General Information

Healthcare is undergoing various transformations; from changes in legislative or regulatory mandates to how consumers access quality care. This year's annual conference will address various sectors in the spectrum of healthcare: from patient access, to government and legislative mandates, and how consumers monitor its delivery. The AHRMNY program will offer insights into how healthcare staff can utilize benchmarking techniques to monitor quality. The conference closes with "Part 1" of the transforming Risk Managers role. AHRMNY's annual conference includes Guest Speaker Kemp Hannon addressing the legislative work of the Medicaid Redesign Team and with a Keynote address by Denis P. Whalen on the Future issues with Medicaid but more significantly, addressing how these changes impact NY's Malpractice Crisis.
